INTRODUCTION

ABOUT THIS APPLICATION

Achieving and maintaining freedom requires cultivation of successful habits, connections, and ideas. Success can be threatened when certain areas of life aren't in harmony. Part of the process is determining what success looks like.

Part of creating a game worth winning is looking into the five distinct tracks corresponding to the development of your Human Life Value: **Financial, Soul Purpose, Mental, Physical, and Social**. Each track represents an important domain of life. The 5 Tracks are a continuum that can work synergistically in our lives to improve our overall production and happiness. The questions you will be asked in this application will help you evaluate the level of freedom you have achieved in each of The Five Tracks.

IS THE IMMERSION PROGRAM RIGHT FOR ME?

Not everyone is ready to make transformations in their life. The Wealth Labs team would like to facilitate as many individuals as possible, but we will only accept applicants who we believe are able and in the proper phase of life to achieve greater success. Part of the process will unveil how to capture unrecognized, underutilized, or untapped resources to create more cash flow without additional risk.

If you were applying to merely save money on tax or improve cash flow through proper financial design, there are other programs Garrett has created that would be a better fit. On the other hand, if you are looking to increase impact without decreasing your enjoyment of life along the way or looking to create a lasting legacy, the immersion is likely the better fit for you. Based upon your answers and the following interview, our commitment is to find the right place for you to get the results you are looking for.

WHAT IS THE APPLICATION?

The Application is a profile that is both financial and personal in nature. Completing the Application is a preliminary and required step before beginning the immersion. The following pages will ask you to supply general information. Additionally, you will be asked to consider important questions that outline your personal vision for an ideal life.

HOW WILL THE APPLICATION BE USED?

The information you provide on the following pages will be used to evaluate your participation in an immersion or finding an alternative if there is something that may be a better fit. If accepted into the immersion program, this information will be to tailor your education throughout the day. *Please keep in mind that your Wealth Labs team will likely require you to gather documents that detail your financial information.*

HOW DO I COMPLETE THE APPLICATION?

The application is designed to be easy to complete. In order for us to understand your situation, please answer all questions, gather all requested documents, and complete all listed exercises that pertain to the program you are applying for.

Please be as complete and accurate as possible. We understand that there are areas of your life that you would like to improve, otherwise you would not be here. Keeping that in mind, please don't feel as if you need to impress anyone. The more we know about your current situation, the more we will be able to tailor an effective program for you. Space has been set aside for your responses; however, if additional space is required to fully answer questions, please feel free to attach additional pieces of paper.

Once you have completed the application, please mail to:
